

AGS Newcastle Geomechanics Symposium 2026

Tuesday 5 May 2026

Noah's On the Beach
29 Zaara St, Newcastle East, NSW 2300

**AUSTRALIAN
GEOMECHANICS
SOCIETY**

The Newcastle Chapter of the Australian Geomechanics Society is pleased to announce that we are preparing a one-day symposium for the Hunter Valley and Northern NSW regions in May 2026.

This event brings together local industry professionals, government representatives, consultants, and academics to share experiences, highlight local projects, and discuss the current challenges encountered in geotechnical practice.

We invite you to join the program by submitting a presentation proposal by Monday 23 March 2026.

ABOUT THE SYMPOSIUM

We welcome all presentations relevant to the field of geotechnical engineering and practice within our region—whether it's an interesting project, a lesson learned, or the latest innovative research. Our goal is to create a friendly and accessible event where people across all stages of their careers feel comfortable contributing.

Opportunities are available for both standard (~15 – 20 minutes) and short (~10 minutes) format presentations which will be delivered alongside a limited number of extended talks by invited speakers.

Proceedings will be published online as a collection of single page abstracts and speakers are not obligated to prepare a full-length paper.
